

Venetian Blind Care Routine

A) Weekly Dusting (5–10 minutes)

1. Prep the area – Place a towel on the sill/floor to catch dust.
2. Close & support – Close the slats and support each one from underneath.
3. Wipe horizontally – Use a microfibre cloth/glove from centre to ends.
4. Flip and repeat – Tilt slats the other way and wipe again.
5. Vacuum (optional) – Use a soft brush attachment on low suction.
6. Final pass – Open and close tilt once to remove loose dust.

B) Spot Cleaning (Marks & Fingerprints)

1. Mix solution – Warm water + a drop of mild dish soap.
 - a. Aluminium/Faux Wood: Use 1:1 water–vinegar for grease.
 - b. Wood: Barely damp cloth with plain water only.
2. Support & dab – Support slat and gently dab mark.
3. Dry immediately – Use a clean, dry microfibre cloth.

C) Deep Cleaning (Monthly/Seasonal)

Aluminium & Faux Wood

1. Close slats & lay a towel on the sill.
2. Use damp (not wet) cloth with mild soapy water.
3. Support & wipe each slat horizontally.
4. Use vinegar mix for stubborn spots.
5. Flip & repeat on reverse side.
6. Dry immediately.

Real Wood

1. Dust thoroughly first.
2. Lightly dampen cloth with plain water or wood-safe cleaner.
3. Support & wipe gently, horizontally.
4. Avoid vinegar or soaking.
5. Dry immediately after each pass.

Pro Tip: Wipe slats with a dryer sheet after cleaning to repel dust.
